September 2019 – June 2023

Relevant modules to date: Electronic Engineering 1X, Electronic Engineering 1Y, Engineering Mathematics 1, Analogue Electronics 2, Digital Electronics 2, Electrical Circuits 2, Introductory Programming 2, and Engineering Mathematics 2.

St Columba's High School, Dunfermline

June 2013 – June 2019

Highers: Mathematics (A), Physics (A), Chemistry (A), English (A), Music (A).

National 5s: Mathematics (A), Engineering Science (A), Physics (A), Chemistry (A), English (A), Music (A), Modern Studies (A).

House Captain and Prefect in S6.

## WORK EXPERIENCE

Technology Internship Experience, Bright Network

July 2020

- **Project Management:** Involved upskilling sessions and the opportunity to work on an Agile Methodologies work sample and receive feedback on my work. Worked to develop a broader understanding of Agile software development, problem solving and project management within the field of technology.

Technology Enabled Care Panel Member, Young Scot

March 2019 – Present

- **Team-working to develop ideas:** Member of a panel of young people looking at the strategic development of digital technology in health and care. As part of the panel I have worked to shape ideas, solutions, and recommendations for improving digital health and care in Scotland.

Customer Service Administration Assistant, Precia-Molen UK

April – August 2019

- **Accountability for Installation & Maintenance Schedule:** Responsible for the execution of activities in respects to installation and commissioning of equipment, routine preventative maintenance, calibration, and repairs.
- **Coordinating Schedules and Activities:** Providing the highest level of customer care by means of thoughtful, efficient, forward planning of installations, conversions, and repairs, including the coordination of sub-contractor activities.

5Rights Youth Leadership Group Member, Young Scot

November 2017 – February 2019

- **Public Speaking and Workshop Delivery:** 5Rights is an initiative that aims to enable young people to access the digital world creatively, knowledgeably, and fearlessly. As part of this group, I have worked to apply recommendations about improving the digital experience for young people in Scotland, delivered workshops, spoken at conferences such as the Scottish Learning Festival, and had meetings with leaders in business.

## EXTRA CURRICULAR ACTIVITIES

Class Representative, University of Glasgow

September 2019 - Present

- **Organisation:** Re-elected as student representative for Second Year Engineering and Sub-honours Music after successfully representing Engineering in my First Year. Official representative at subject committees, helping to facilitate communication and constructive change within my course.

FemEng Society, University of Glasgow

September 2019 – Present

- **Confidence and Motivation Training:** Attended workshops to improve confidence and delivery of public speaking and conferences such as WES Virtual Student Conference 2020.

Introduction to Web Development, Code First Girls

September – November 2020

- **HTML, CSS, and JS:** Evening course in Web Development, culminating in a team project to develop a website from scratch.

Graduate Engineering Engagement Programme, SEO London

September 2020

- **Diligence:** Selected as part of programme to give high-performing undergraduates an insight into the engineering industry.

Sustainable Development Goals Action Group, Project Scotland

January 2019 – February 2020

- **Strategic Planning:** Working with policymakers to embed the UN SDGs into proactive policy and ensure youth voices are heard in a Sustainable Democracy.

Student to Stemettes Graduate, Stemettes

October 2018 – April 2019

- **Professional Development:** Selected as part of first Scottish Cohort of highly selective STEM mentoring scheme.
